Tim,

Attached are ACHDs responses to the your comments for the proposed Invenergy AEC proposal. Also, attached are two folders, the first labeled Maranche, is the additional AERMET data used in the model. (Second, third and fourth emails to follow) The second folder labeled Vozar, is the additional AERMOD model of the NO2 1-HR NAAQS with Adjust U*. All the receptors are below the 1-HR NAAQS threshold.

Let me know if you have any follow-up comments or what not as Permitting is working through the remaining comments for this permit.

Thank you,

Shaun

Shaun and Jason,

I'm forwarding our comments submitted for the Invenergy AEC proposal (apologize if these were already forwarded to you). The modeling comments are included as an attachment. I went over these a couple of weeks ago so I hope there are no surprises.

Please feel free to reach out to me if you have any questions or concerns regarding my comments.
